TypeScript

EDUCATION

Bs Information Technology (IT)

Karakarum International University
Gilgit

2022-2026

Intermediate

Wisdom Collage Danyore
Gilgit

2020-2022

LANGUAGES

Urdu
English

PROFILE

My name is kashif hussain , a web developer with 3 years of experience helping modern businesses build dynamic and responsive websites. I specialize in HTML, CSS, JavaScript, React, Next js, TypeScript, and Next js, creating seamless digital experiences that not only look great but function flawlessly. What sets me apart is my commitment to both clean code and user-centered design, ensuring that every project I deliver is optimized for performance and usability. While many developers can code, few know how to create user experiences that drive results. I'm here to change that.

WORK EXPERIENCE

Sr Front end web developer

North Amis Technology

- Developed dynamic and responsive web applications using modern JavaScript and React.
- Optimized front-end state management with React, improving user experience and interface stability.
- Worked closely with UI/UX teams to translate design concepts into high-quality, responsive web pages.
- Identified and resolved front-end performance bottlenecks through effective debugging and optimization techniques.
- Applied automated testing tools like Jest and Enzyme to ensure front-end component reliability and smooth integration.

Front end web developer

Sprinted vision

2020-2022

- Developed dynamic and responsive web applications using modern JavaScript and React.
- Collaborated with designers during learning projects to implement responsive and visually appealing user interfaces.
- Acquired knowledge in version control using Git, including managing pull requests and conducting code reviews.
- Participated in agile methodologies, familiarizing myself with sprint planning, daily stand-ups, and retrospectives.
- Learned performance optimization techniques to improve page load times and overall responsiveness.
